THE WARBURG INSTITUTE

The Warburg Institute, which was incorporated in the University of London in 1944, was originally the library of Professor A. M. Warburg (1866-1929) of Hamburg. Warburg's early researches centred on the significance of classical civilization in the intellectual and social context of Renaissance art, but later came to embrace a wider field of cultural history. The Institute's Library and its associated Photographic Collection now aim to provide the means of research into the processes by which one culture influences or is influenced by another. They seek to document the links between the thought, literature, art and institutions of post-classical Europe and those of Greece and Rome, and the effects of the ancient Near East on Mediterranean civilization.

The Library and Photographic Collection allow open access to their material and are so arranged as to facilitate interdisciplinary research in the humanities. The Library has four main divisions: social and political history; religion, history of science and philosophy; literature, books, libraries and education; history of art, classical art and archaeology. Subdivisions include the history of festivals and pageantry, the idea of Empire, historiography, the history of cosmology and astrology and their pictorial expression, ritual and myth, liturgy and religious orders, Platonic and Aristotelian traditions, Islam as transmitter of philosophy, emblematics, neo-Latin literature, the reception of classical literature, and the diffusion and influence of Greco-Roman art. The Photographic Collection is also arranged according to subject, and covers both religious and secular iconography.

The Institute, which is a member Institute of the School of Advanced Study, is open to the academic staff and postgraduate students of the University, to teachers and research students from other universities and institutions. Others are admitted at the discretion of the Director.

The Institute accepts postgraduate students for the MPhil and PhD degrees by dissertation only, and also offers a one-year full-time MA Course in Combined Historical Studies, focusing on the Renaissance. Seminars, public lectures and informal talks are given, and regular international colloquia organized. Publications include the *Journal of the Warburg and Courtauld Institutes*, and four series of texts and monographs. A pamphlet on the Institute and its publications is available from the Secretary and Registrar.

five other persons:

Sir Anthony Kenny (Chairman), Dame Bridget Ogilvie, Sir Piers Rodgers, Dr Charles Saumarez Smith, (vacancy).

Two new members joined the Board during the session in the category of Teachers of the University: Professor David Ganz (Professor of Palaeography, King's College London); and Professor Vivian Nutton (Wellcome Institute for the History of Medicine and Professor of the History of Medicine, University College London).

The Institute wishes to record its thanks to Professor Griffiths who resigned from the Board as a Teacher of the University at the beginning of the session, to Mr Batley who stepped down from the Board at the end of the session following his retirement earlier in the year as Director of the Institute of Germanic Studies, and to the following members, who completed their term of office: Professor Armour, Dr Chambers, Professor Hunter, Dame Bridget Ogilvie and Sir Piers Rodgers.

School of Advanced Study

The Centre for English Studies, previously designated a Programme of the School, was granted Institute status.

Directors met regularly to discuss the impact of changes in the funding of higher education, and to formulate policy for the operation of the School in the light of developments within the Central University. Work continued on framing procedures for the responsibilities devolved to the School under the University's new Ordinances.

Academic collaboration between constituent parts of the School continued through seminars and conferences, and by means of the Fellowship scheme, which was extended to provide improved conditions for research. The Institute participated in a Resources Day held at the beginning of the academic year to introduce new research students to the facilities and resources of the School.

American Friends of the Warburg Institute

A notable donation was made by Dr Yvonne Hackenbroch through the American Friends of the Warburg Institute for the establishment of a Student Travel Fund. The first awards will be made in 1999-2000. The Institute has never previously been able to make grants to students for research travel, and is extremely grateful to Dr Hackenbroch for providing this assistance.

The two major donations received through the American Friends of the Warburg Institute in the previous year were transferred to the Institute at the end of the session. Details of the work undertaken with the grant of \$1,000,000 by the Fanny and Leo Koerner Charitable Trust to the Library, and of the Research Fellowship endowed by Mr Albin Salton, are given in subsequent sections of this Report.

In addition to these gifts, the Directors of the American Friends made a grant of just over \$25,500 to the Institute. After application of amounts earmarked by their donors for specific aims, the grant is to be allocated to Library purposes, including conservation.

The support of individual benefactors and of members of the New York Council, who organized and administered the appeal for funds, is much appreciated. At a meeting held in January at the home of the President of the New York Council, three of the Institute's PhD students spoke about their research and the work of the Institute.

Mr John Nicoll (Yale University Press, London) and Professor Michael Podro (University of Essex) were appointed Directors of the American Friends of the Warburg Institute in December. Warm thanks are due to Professor Sir Ernst Gombrich (President) and Mr Max Warburg, who had both been Directors since the inception of the American Friends, and who ceased to be members of the Board. Professor Trapp was elected President, Mrs Constance Blackwell Vice-President, and Professor Mann Secretary of the American Friends.

Library Refurbishment and Extension

A major project to expand the Library, provide additional office space and re-wire the building was successfully completed during the year. The development and accessibility of the collections have been secured, at least in the medium term, by the incorporation into Library space of adjacent offices and corridors, and by a re-orientation of the shelves to maximise the usage of existing stack areas. At the same time facilities for readers have been greatly enhanced. Details of these improvements are given in the Library section of this Report.

Work was carried out concurrently on a small extension to create new offices at the opposite end of the building. This additional accommodation, together with the provision of Library carrels, has allowed the redesignation and expansion of working space throughout the building, including the allocation of a larger room for computers.

Other significant improvements have resulted from the re-wiring of the entire building and the installation of new data and telephone cabling. The on-line Library catalogue can now be consulted from each floor of the stacks as well as in the Reading Room. The new telephone cabling has linked the Institute to the University system, offering direct lines and voice mail.

The project was designed by Mr Martin Johnson of AHP Architects. Building work began in July 1998 and, thanks to the contractors Mansell PLC, was completed on schedule at the end of April. This enhancement of the Institute's facilities, which will carry it well into the twenty-first century, would not have been possible without the generosity of two private donors in particular, and of the University. The Institute would like to express its profound gratitude to the Fanny and Leo Koerner Charitable Trust for the gift of \$1,000,000, and to Dr Gert-Rudolf Flick for a donation of £50,000, as well as to the many other individuals who contributed to the Library Appeal. The Institute also wishes to record its thanks to the University for financing the re-wiring of the building and the installation of the new cabling.

Library Appeal

The Library Appeal provided valuable supplementation for the refurbishment of the Library. Donations and income from covenants and bequests accrued to the benefit of the Appeal.

Menil Foundation

In accordance with the wishes of the late Dominique de Ménil, the Menil Foundation of Houston, Texas, has generously donated to the Institute the entire documentation on The Image of the Black in Western Art which has been gathered and preserved in Paris. The project, begun in the 1960s by Mme de Ménil and her husband John, provides (and continues to provide) the working material for the well-known series of publications, *L'Image du noir dans l'art occidental/The Image of the Black in Western Art*, which the Foundation likewise sponsors. Some 30,000 photographs will come to the Institute along with a library of more than 6,000 books and offprints, ranging from works specifically devoted to topics such as slavery, travel accounts and the iconography of the blacks to general historical, literary and art-historical studies. The archive, which has been assembled over the years under the direction of Mr Ladislav Bugner, who is also editor of the volumes, is scheduled to arrive at the Institute in September 1999. This transfer, which will enrich and complement the existing holdings, both in the Photographic Collection and in the Library, is properly the subject of next year's Annual Report; for the present the Institute simply records its gratitude and appreciation.

Honorary Fellows

On the occasion of his ninetieth birthday Professor Gombrich received an Honorary Doctorate in Philosophy from the University of Vienna, and an Honorary Fellowship from the Akademie der Bildenden Künste, Vienna. A series of lectures organized by the University of Vienna took place in Professor Gombrich's honour, and an exhibition of his works was held in the university library.

Professor Klibansky was appointed *Grand Officier de l'Ordre National du Québec*, and received the *Médaille de la Ville de Paris*. He served as Honorary President of the Cassirergesellschaft.

Professor Trapp gave a lecture in honour of Professor Gombrich's ninetieth birthday at the University of Vienna.

It was with great regret that the Institute learned of the death on 28 March of Professor John Varey. Professor Varey was Chairman of the Board of the Institute (formerly Committee of Management) from 1978 to 1992, the third Chairman since incorporation in the University in 1944. The Institute owes him a great debt for his generous advice and his continued advancement of its interests within the University at large, as well as for his service on the Board, its subcommittees and related panels.

Library

Acquisitions and Book Fund: The total number of items accessioned during the year was 4,490. The book budget for the year was once again supplemented by the American Friends of the Warburg Institute, the bequests of Dr Margaret Gibson and Mrs Elizabeth Gibson, the estate of Dr Heidi Heimann and the deed of variation under her bequest, enabling book purchasing to be maintained at an adequate level.

Book Gifts: Approximately one third of the total number of books acquired by the Library came as gifts or exchanges. The list of book donors when added to the list of donors to the Library Appeal and the American Friends is now too long to be conveniently listed in an Annual Report, but all donations in whatever form have been acknowledged individually, and a bookplate naming the donor has been placed in all donated books. Institutions which have regularly presented publications include: The Abegg Stiftung, the British and Royal Numismatic Societies, the *Burlington Magazine*, the Hellenic Foundation, the International Medieval Sermon Studies Society, Lessico Intellettuale Europeo, the National Gallery, the National Galleries of Scotland, and the South Bank Centre. Through the good offices of Dr and Mrs Andrew Pembroke the Institute was allowed to select over seventy books from the library of the late Simon Pembroke, a long-standing friend of the Institute. Mrs Catherine Schmitt has generously donated to the Library further books from the estate of the late Charles Schmitt.

Library Refurbishment: The extensive rebuilding project which involved the whole of the Institute was successfully completed. The Library now has new shelving, much improved lighting, custom-made desks and carrels, and is a much more comfortable working environment with more and better work spaces. This has been achieved at the same time as providing a considerable amount of expansion room for future book purchases, an apparent contradiction for which we can thank the architect Mr Martin Johnson. All books are now back on the shelves. Catalogue terminals have been placed on each floor next to the desk area in the stacks.

Additional Library office space has been provided on the ground floor, which will make it easier to organize cataloguing and computer support activities.

Library Security: Although the Library suffers less from theft than most large libraries, there are regular reports of missing books, and security gates have been installed. The gates will sound an alarm in the event of unauthorised removal of books, and also contain a counter to record the number of persons entering the building.

Conservation: Thanks to the generosity of the American Friends the conservation programme was enhanced, with special attention to the art history section.

A draft catalogue of the Yorke Collection was completed, with the part-time assistance of Ms Ursula Sdunnus and Ms Julia Watson, preparatory to a conservation and microfilming project.

Automated Library Catalogue: The School of Advanced Study consortium computer system, Innopac, was upgraded and continues to give satisfaction.

New Facilities: A digital photocopier producing better quality images of pictorial material was acquired.

The Institute's Web site was enhanced and edited by Dr Jacqueline Glomski.

CD-ROM Collection: New additions to the CD-ROM collection were:

Encyclopaedia Judaica

The Grammar of Ornament

*Gedruckte Porträts 1500-1618 aus der graphischen Sammlung des
germanischen Nationalmuseums*

Gemäldegalerie, Berlin

*1848: Politik, Propaganda, Information und Unterhaltung aus der

New Databases: The latest PC version of *Abbreviationes* has been bought for the Reading Room. The Library has also subscribed to the *Iter Database* containing a bibliography of approximately 225,000 records from the complete runs of more than 300 scholarly journal titles pertaining to the Middle Ages (400-1299) and Renaissance (1300-1700).

Library Committees: The Institute continued to be represented on the University's library subcommittees for art, Byzantine studies, classical studies, palaeography and history, and on the library committees of the School of Advanced Study.

Readers' Tickets: 1,694 were issued during the year.

Bindery

The Bindery was extensively refurbished and enlarged as part of the building programme. Facilities and conditions for carrying out binding and general repair work have been considerably improved, and a separate room devoted to conservation work has been installed.

Much of the equipment was not accessible during the building works, which restricted the amount and type of work which could be carried out during the Spring. In addition to paper conservation work carried out by Mrs Alsop in the archives, 7,077 items were dealt with during the session. Of these 380 were buckram bindings, 2,348 'Lyfguard' bindings, 280 pamphlets, 137 stationery and 3,932 miscellaneous.

The bindery of the Institute of Historical Research continued to operate in conjunction with the Warburg Institute's bindery.

Photographic Collection and Photographic Studio

As recorded earlier in this Report, the Photographic Collection is to benefit from the generous donation by the Menil Foundation of the Paris archives of the *Image of the Black in Western Art* consisting of some 30,000 images and associated books. A separate area has been prepared in the Photographic Collection to receive the archive, which will be transferred in September 1999.

The activities of 1998-99 were indeed dominated, and at times curtailed, by the various moves and re-installations which accompanied the different stages of the building work in the Institute, especially during the period when the Photographic Studio was out of action.

More than ever this year, the Institute and the Photographic Collection staff are grateful for the assistance, moral and practical, of Mrs Frankfort, Dr Montagu and Dr Rubinstein, who generously gave their time, labour and advice to help organize and re-organize the Collection, as well as answering enquiries from students and visitors. Ms Ursula Sdunnus worked in the Collection on a part-time basis from June sorting and filing photographs, and assisting with enquiries.

A revision is in preparation of the *Guide to the Photographic Collection* compiled by Dr Montagu and published in 1988. The new *Guide* will not only take account of recent changes, but will be fuller than the previous *Summary Guide*, with more detailed specification of certain sections.

A collection of approximately 8,000 postcards of West European, East European and non-European works of art was donated by Mr Simon Barrett, whose gift is much appreciated.

An updated CD-ROM was received from Berlin for use with the computerised *Census of Antique Works of Art and Architecture known in the Renaissance*. Thanks are due to Dr Johannes Röhl for his help with this, not least when he was at the Institute pursuing his own research in the Spring.

Among the photographic acquisitions were forty photographs from the Kunstmuseum, Basle. Other photographs were received, as usual, from institutions and individuals, often with iconographic questions attached. The success rate in resolving these did not seem to have been too much affected by the occasional absence of a relevant part of the Library. Christie's and Sotheby's, who sent many sale catalogues as well as photographs, are to be particularly thanked.

The Studio printed the photographs for the volume *Photographs at the Frontier. Aby Warburg in America 1895-1896*, published by Merrell Holberton in

association with the Institute, and in German translation by Dölling und Galitz, Hamburg-Munich, as well as the photographs for an exhibition of the same title curated by Ms Benedetta Cestelli Guidi on behalf of the Institute. This exhibition was held in the Palazzo Schifanoia, Ferrara from September to November, in the Museo Nazionale Preistorico ed Etnografico Luigi Pigorini in Rome in November and December, and at the Altonaer Museum, Hamburg from February to April. The Studio also prepared the photographic material for the exhibition *Aby Warburg e la storia delle immagini astrologiche*, curated by Ms Cinzia Frutucello and Ms Christina Knorr, and held simultaneously in the Palazzo Schifanoia, Ferrara. In addition a selection of prints made by the Studio appeared in the exhibition *Native Nations: Journeys in American Photography*, held at the Barbican Art Gallery, London.

The Studio produced slides and prints for staff, students and users of the collections, and maintained a basic service for slides during the period when other photographic facilities were unavailable as a result of the building works. Photographic assignments at outside locations included the Museum für Völkerkunde, Hamburg, and Lambeth Palace Library.

A continuing debt of gratitude is owed to Mr Raymond Whitehead for the generosity and willingness with which he has assisted the Studio.

Archives

The Arts and Humanities Research Board has awarded the Institute a Research Grant of £313,440 for five years from August 1999 for *The Correspondence of Aby Warburg and the Kulturwissenschaftliche Bibliothek Warburg: An Electronic Catalogue of the Warburg Institute Archive*. The Institute is deeply grateful to the AHRB for this grant, which will allow the cataloguing of the papers of Aby Warburg to be continued. During the 1998-99 session the work of the archivist was supported by the third and final year of the award from the Getty Grant Program and by a grant from the Samuel H. Kress Foundation. Grateful acknowledgment of their generous assistance is made to both organizations; their support enabled cataloguing to be carried out on a full-time basis instead of part-time as previously. By the end of the session a total of 20,000 letters up to the year 1928 had been entered in the database, which is available for consultation in the Library Reading Room.

Paper conservation was carried out in the Bindery on correspondence up to 1936. Calendaring and checking of letters up to 1927 were handled by Mr Whitehead, whose help was much appreciated.

Volume 61 (1998) of the *Journal*, edited by Dr Chambers, Dr Kraye, Dr McGrath and Dr Paul Crossley (Courtauld Institute of Art), was published during the session.

Professor Ian Maclean (All Souls College, Oxford) was appointed joint editor of the *Oxford-Warburg Studies* in place of Professor George Holmes, who resigned on the grounds of ill health.

The Institute *Newsletter*, numbers 9 and 10 edited by Professor Mann and Mr Jennett, appeared in December and July.

Aby Warburg, The Renewal of Pagan Antiquity. Contributions to the Cultural History of the European Renaissance with an introduction by Kurt W. Forster, an English translation of the two volumes of Warburg's *Gesammelte Schriften* (1932) was published by the Getty Research Institute for the History of Art and the Humanities in its *Texts and Documents* series.

Iter Italicum: Professor Paul Oskar Kristeller's *Iter Italicum. A Finding List of Uncatalogued or Incompletely Catalogued Humanistic Manuscripts of the Renaissance in Italian and other Libraries*, begun at the instance of Fritz Saxl, was published in six volumes by the Institute in collaboration with E. J. Brill of Leiden between 1963 and 1994, with a cumulative index in 1997. The *Iter Italicum* is an indispensable aid to all who study the Renaissance. Professor Kristeller, who died in New York in July at the age of 94, had been associated with the Institute for more than sixty years, during which time he had won an international reputation for a rare combination of scholarly industry with generosity in sharing information.
